RE: Request for authority for the County of Westchester to enter into an agreement with St. John's Riverside Hospital to operate a violence prevention program known as the "Resolve to Stop the Violence" Program for selected jail residents in the custody of the Westchester County Department of Correction, for a term commencing January 1, 2022 through December 31, 2022, in amount not to exceed \$516,645.00, payable pursuant to an approved budget

Authority is requested for the County of Westchester (the "County"), acting by and through its Department of Correction ("DOC"), to enter into an agreement ("Agreement") with St. John's Riverside Hospital ("St. John's") to operate a violence prevention program known as the "Resolve to Stop the Violence" Program ("RSVP Program") for selected jail residents in the DOC's custody, for a term January 1, 2022 through December 31, 2022, in an amount not to exceed \$516,645.00, payable pursuant to an approved budget.

The RSVP Program is based on a "restorative justice" model that has been successfully implemented at the San Francisco County Jail. St. John's has successfully implemented and operated the RSVP Program since its inception on May 19, 2008. St. John's model will include the manalive violence prevention component and a survivor (victim) component. St. John's proposes to enhance the model by including concurrent substance use disorder services utilizing principles and practice of its Solutions program. As such, St. John's Counselor/Facilitator staff will be cross trained in violence prevention and addiction treatment, and St. John's expects a percentage to be NYS Credentialed Alcoholism and Substance Abuse Counselors. St. John's also proposes that jail residents with mental health histories and/or those currently taking psychotropic medications be considered for RSVP Program participation if acceptable criteria/guidelines can be agreed to with DOC. Case Management support is provided to participants as they transition to the community to ensure acquisition of services and to promote a healthy reintegration. The services are comprehensive and individualized and detailed in the participants discharge plan. Finally, St. John's proposes the inclusion of program graduates to assume internship within the community center component of the program to provide group facilitation or outreach responsibilities.

The goals & objectives of the RSVP Program are to address the unique treatment needs of males that have a violent behavior history, are chemically dependent and incarcerated at the Westchester County Department of Correction's jail ("County's Jail"). The RSVP Program is a crime – victim driven program. It is a violence cessation program that reaches out to perpetrators with the goals of providing:

- Ongoing recruitment and training of qualified program staff to implement the continuing operation of a 44 resident program. This will include violence intervention training as well as victim impact component.
- Jail resident learning of the tools and strategies necessary to understand the roots of their violent behavior and its impact on themselves, victims and the community.
- Provision of quality substance abuse disorder treatment services with recognition of the linkage between substance abuse disorder and violence.
- Improved conduct and program participation while a resident at the County's Jail.
- Successful transition to community and reduction in risk for relapse and recidivism due to violent behavior and substance use. Availability of community center component upon discharge.

Quarterly program evaluations and an annual report will be completed to determine the RSVP Program's effectiveness and the achievement of stated goals and objectives.

St. John's will also use the following subcontractor in performing these services:

Westchester Community Opportunity Program, Inc., a/k/a WestCOP
Victim Assistance Services
2269 Saw Mill River Road
Elmsford, NY 10523
(Victim impact panel sessions)

Impact:

The RSVP Program is a Restorative Justice Model of violence intervention based on the principle that crime is an offense against the community, not simply a violation against the state, and creates an obligation to make things right. Offenders in this program learn how to avoid violence and are given the opportunity to understand and take responsibility for the harm done. Violent offenders incarcerated at the County's Jail participate in a targeted intervention program that will identify and address the root causes of violence. They will learn how to break the cycle of violence which leads to future arrests and incarcerations. The RSVP Program's methodology incorporates offender accountability and community involvement to reduce recidivism and to responsibly return ex-offenders to their communities, and prevent further violence. Jail residents will also learn to use their hands on experience to become community advocates at different levels of opportunity in their life, at home and in their neighborhood, leading to the restoration of perpetrator, victim and community.

Evaluation:

Evaluation of the RSVP Program's effectiveness is summarized as follows:

Violent offenders with broadly defined violent charges such as assault, domestic violence, armed robbery, rape and murder or have cases pending for violent offenses are mandated to the RSVP Program.

The RSVP Program is located in an all-male 44-bed direct supervision cell-block. The RSVP Program consists of peer re-education classes (*Manalive curriculum*), group discussions, academic classes, role-playing, counseling sessions, substance abuse treatment services and discussions with victims/survivors of violence.

In the past 12 months:

- 118 jail residents were admitted to the Resolve to Stop Violence Program
- 93 jail residents successfully completed the program
- 35 jail Referrals were made to the RSVP Program

The RSVP Program will have a positive financial and public safety impact on the County and its communities.

This Agreement is exempt from the Westchester County Procurement Policy pursuant to section 3(a)(viii) and 3(a)(xvii) thereof.

Accordingly, I recommend adoption of the annexed Resolution.
